

Name **Layout Timeline** **Version**
Updated by Mathias PFAUWADEL 1.1

Patch Notes

- 1.1 : Work on tab, objectPage
- 1.0 : 1st version working

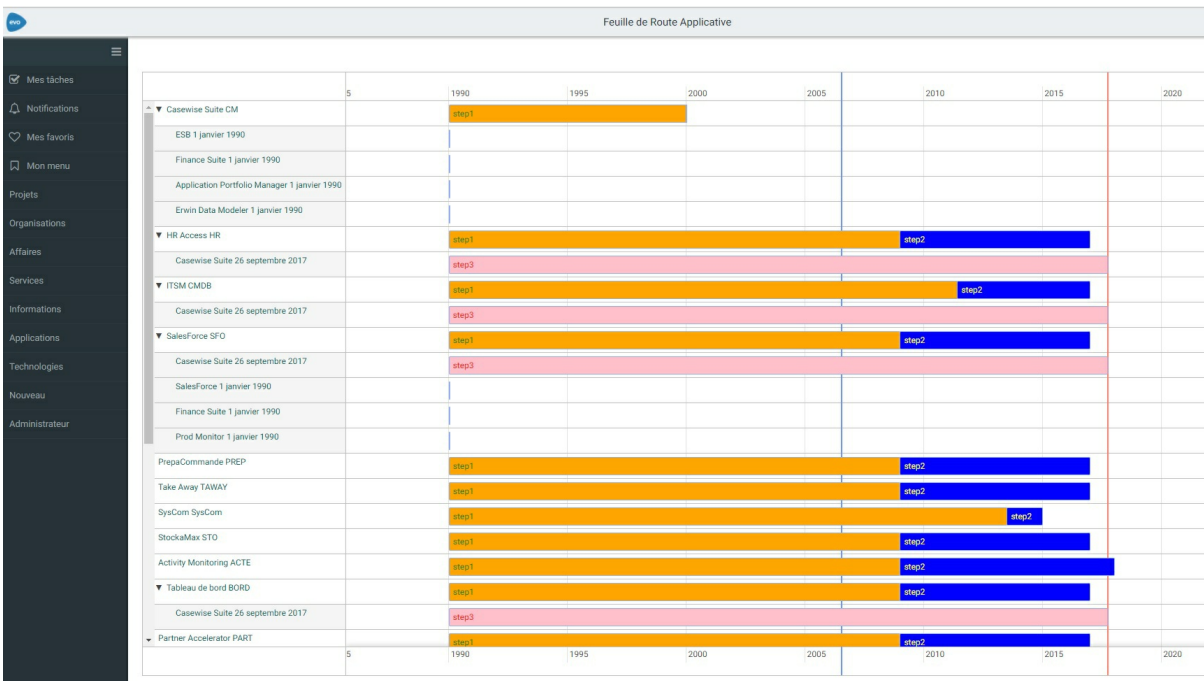

To be Done

- SearchText Box
- More Options
- Filter
- Export
- Editable

Description

Allow you to display DateProperty of your objects (and their associated objects) in a Timeline. The Layout support one level of association, and the customDisplay string

Screen Shot

Style are fully customisable by CSS, you can expend/collapse the list of associated objects. You can zoom with mouse wheel and the scale time will adapt.

Node setup

On indexPage

index_applications_roadmap	Layout name	Timeline
Application	Layout ID	
Layout Timeline	Custom Display String	[name] [APPLICATION_CODE]
Application - Flux (envio)	Hidden Nodes	flux_20021_2424782033
Layout List (Simple)	Steps	[["application_roadmap_per_type", ["steps", [{"name": "step1", "start": "WHENCREATED", "end": "GOLIVEDATE", "style": "color: green, background"
Flux - Application (est reçu par)		
index_bases_de_donnees		
index_cw_meta_model_entity		

Options

Hidden Nodes :

Set the ID of the nodes you don't want to appear in the tree, the children will be display instead. (Can be use for application flux See exemples below)

Steps

Describe your step in a json file, then minify it on <https://www.cleancss.com/json-minify/>

Here is an exemple :

```
{
  "application_roadmap_per_type": {
    "step1": {
      "name": "step1",
      "start": "WHENCREATED",
      "end": "GOLIVEDATE",
    }
  }
}
```

// node ID
// id of the step must be unique
// name of the step
// property scriptname of the start date
// property scriptname of the end date,
// will be set to current if the date is not set

```
        "style": "color: green; background-color: orange;" // css style of the step
    },
    "step2": {
        "name": "step2",
        "start": "GOLIVEDATE",
        "end": "ENDDATE",
        "style": "color: yellow; background-color: blue;"
    }
},
"application_20020_230578405": {
    "step3": {
        "name": "step3",
        "start": "WHENCREATED",
        "end": "WHENUPDATED",
        "style": "color: red; background-color: pink;"
    }
}
}
```
